

Charme bed

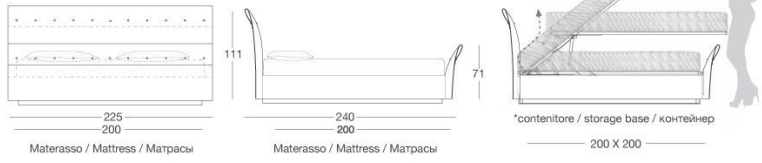

W 830 Giuseppe Viganò

Bed available in two versions: 1 - headboard and footrest in the same concept with buttons covered in plain colour or Swarovski crystals. 2 - with the bed base completely upholstered without buttons. The frame is in wood covered in high density polyurethane foam. The bed has a base assembled with metal corner angles which allow easy set up and the possibility of regulating the height of the bedspring of 10 cm, 2 cm at a time (optional). This allows the bed to be used with any type of bedspring or mattress, and it also permits the height of the mattress level to be changed. In alternative, a practical container base is available, with two levels of opening to facilitate accessibility. The interior of the storage base is covered laterally in the same upholstery as the bed, while the bottom is a removable plain colour laminate to facilitate cleaning. The container base includes the metal frame with beech wood slats with adjustable lumbar support. Given the special manufacturing process, fabric or leather upholstery is not removable.
