W 840 Giuseppe Viganò

Structure in wood covered in multi-thickness polyurethane foam. The headboard and base are tted with leather or fabric upholstery, finished with visible buttons positioned manually and individually, in the finishes: bright chrome, matt black, bright light gold or matt antiqued gold, or covered in leather and, when possible, in velvet. The bed base can also be supplied smooth and without buttons. The bed base, separate from the headboard, is tted with metal corner pieces that are used to position and adjust the height of the mattress base. It can lowered from the bed edge by 10 cm, with adjustments every 2 cm, to accommodate any type of mesh/bedspring or to change the height of the mattress. In the base, it is possible to insert a fixed bedspring and, only in the Queen/King sized model, a practical storage compartment with two mechanisms to make sure the mattress is level. The bottom of the container is in wood with silk-effect laminate. When the bed is positioned against the wall, it is possible to cover the back of the leather headboard in a coordinated shade of velvet. Given the particular assembly of the product, the upholstery is not removable.
